"This bit of sareasm provoked laughter, and the Governor took up the charge that he had vetoed a Confederate, pension bill, and amid enthusiasm showed that he had vetoed a Confederate, pension bill, and amid enthusiasm showed that he had been the means of bringing about the passing of a proper bill, giving the old soldiers \$306,000.

"God being my Judge." he declared in his most fervid and eloquent manner. "I have never turned my back upon a man who wore turned my back upon a man who wore the ragged Confederate gray, and I never will so long as I live."

The Governor explained why he had not signed the bill to place the statue in the Hall of Fame at Washington, and his explanation was so eloquent that his hearers cheered almost every gentence. He declared that General Lee's family did not wish the bill, and that General Payne, among the knightliest that rode with the famous Black Horse Cavally, had written him, "Don't let them crucify our holdes and best men in the don of thieves."

The Debt Settlement.

The Governor took up the matter of the debt settlement between the United States government and Virginia and argued to the satisfaction of his hearers that the actual amount received by the State was \$5.50, and not \$1,700,000, as claimed by Senator Martin.

"I'l make this matter so plain." he read, "that a wayfaring man, though a Martin partisan, need not err therein. SOUTH BOSTON, VA., July 21.-Governor Monlague and Congressman Swanson addressed an audience here tonight which taxed the capacity of the Opera House, and which resulted in an ovition for both candidates. Hon. R. R. Noblin presided, and Mr. Swanson was introduced by Mr. Joseph Stebblus, Jr., while the Covernor was presented by Colonel Henry C. Easley.

MARTIN IN STAUNTON.

Greeted By a Large and Enthusiastic Audience.

STAUNTON, VA., July 24.—Senator Martin spoke here to-day in the County Court room and was greeted by a good and enthusiastic audience. County Commonwealth's Attorney R. S. Ker, introhis speech was frequently and loudly applauded by his hearers. He made a mos favorable impression by his speech, which is generally regarded the best he has ever made in this city, and it is believed will gain many votes for him here, After the speaking, which listed two hours, Senator Martin dined with Mr. A. C. Braxton,

His speech was in many respects simiar to the ones he has delivered heretotore, few new issues being discussed. He charged the Governor with belittling him, and his past services to the Commonwealth, and said that the present campaign was one of disparagment and misrepresentation from start to finish on the

representation from start to finish on the part of his rival aspirant. He stated further that if he had erred, and to err is human, his distinguished opponent was so extremely human that he had falled in his most carnest efforts to point a single instance where he had erred.

He freely discussed the Virginia settlement, He said the Governor must be the machine man because he has the power of appointing men to office right here in Augusta county. There are some cogs in the Governor's political machine, Senator Martin here referred to Colonel Turk, editor of the Staunton Speciator and Vindicator, who he said supportted him before the Governor appointed him "Turk" on the Western State Hospital board.

Senator Martin said that when the Gov-

Senator Martin said that when the Governor stated that he was opposed to the redding of a constitutional convention he was inaccurate because he said he was in favor of holding a constitutional convention, and he voted for it.

Senator Martin said that the Governor stated that he had attacted the Corporation Commission and that his (Martin's) friends in the convention had opposed the clause in the new Constitution creating the Corporation Commission.

Senator Martin stated this was another inaccuracy, that he had favored the clause in the new Constitution which created the commission, and considered that provision of the Constitution next to the suffrage clause the most valuable part of the Constitution. He stated that

he had commended this clause of the Constitution many times and recalled that in a public speech in Petersburg many months ago at a banquet at which A. C. Braxton, the author of the clause is question was present, he had spoken in terms of the strongest commendation of this clause, and of Mr. Braxton for his valuable services to the State as the chairman of the measure. So far as his friends in the convention having opposed the measure he stated that a majority of the committee by which the measure was reported to the convention were his friends and that the distinguished president of the convention, John Goode, and a majority of the members of the convention were his political riends, and were supporting him for re-election.

re-election.
In referring to the attack made by the Governor on Colonel Joe Button, the Senator called attention to the reply from Colonel Button, quoting the prodisions of the Constitution which

re-election and ineligible for election to any other office during his term of service as Governor.

He also called attention to a quotation from an opinion of Judge Moncure, delivered while he was president of the Supreme Court of the State, in which Judge Moncure said that this provision in our Constitution was intended to prevent the Governor from being exposed to time the Judge Moncure having stated that the object of the provision was to make it impossible for the Governor to use the patronage and power of his office, which were intended for the welfare of the State.

Senator Martin stated that he didn't contend that this provision of the Constitution made the Governor ineligible, but simply that the policy of the Constitution made the Governor of the State occupying this position of the patronage of the State occupying this position of the State Constitution control the matter.

He said the State Constitution cannot control so far as the senatorship is concerned, because the Constitution cannot control so far as the Senatorship, and that no State Constitution of the United States prescribes the qualifications.

After Senator Martin had finished speaking, Mr. J. D. Eggleston made a short speech in the interest of his candidacy for Buperintendent of Public Instruction.

The county committee held a meeting in the law effice of Flood and Ferguson and made arrangements for conducting the primary in this county. While the committee was considering the mode of selecting the judges, A. H. Clement, a candidate for the Legislature, asked permission to address the committee on the subject, which was granted, and after explaining the call which had been made by State Chairman Ellyson for volunteers to conduct the primary, suggested thirty names of the very best to be found in the county, who offered their services to the party free. thement. He said the Governor must be the machine man because he has the power of appointing men to office right here in Augusta county. There are some cogs in the Governor's political machine. Senator Martin here referred to Colone Turk, celltor of the Staunton Spectator and Vindleator, who he said supportted him before the Governor appointed him "Turk" on the Western State Hospital board.

He had tried to be very partiet are and conservative and patient and forbearing in this campaign i norder to demean himself as becomes a senator of the United States, he said he had no control what ever over the State Central Cammittee and didn't know what the assessment for the primary would be. He said he submitted his candidacy on his record as he had tried to be both faithful and efficient.

Senator Martin said that when the Governor stated that he was opposed to the control was privilege to offer suggestions and speak in the councils of his party, and always intended to do so. Senator Martin said that when the Governor stated that he was opposed to the Judges Elected.

The regular induces were elected with the exception of the Republican judge, whose place is to be filled by the committeemen from their respective precincts.

No notice was given to the appeal of Mr. Clement. It is said that every judge in the county is for Senator Martin except possibly three. The action of the committee is not pleasing to many Democrats, especially in view of the fact that there is a very large illiterate vote in the country.

PRACTICALLY SETTLES CONTEST. PRACTICALLY SETTLES CONTEST.
(Valley Virginian, Waynesboro.)
The announcement of the candidacy of Ifon. J. Taylor Ellyson for Lieutenant-Governor practically settles the contest. For the Democratic party would be recreant to every sense of gratitude and duty did it fail to bestow this imadequate reward upon him for his distinguished services.

MALARIA

When the germs of malaria enter the blood the entire health is affected, and if the blood is not purified of these germs and microbes, Chronic Sores and Ulcers, Liver Splotches, Chillis and Fever, Bolls, Aches and Pains, and a great variety of troubles manifest themselves, and soon the entire system is undermined, leaving the sufferer a prey to a most miserable, weak and nervous condition.

918 W. Market St., Louisville, Ry.

S. S. S. counteracts and drives all the oison from the blood and builds up the bystem by its fine purifying qualities and tonic effects. It strengthens every part, increases the appetite, helps the stomach and digestion, and by sup-plying the body with rich, pure blood cures Malaria and all its disagreeable all

ments. Unlike most blood medicines S. S. S. is purely vegetable. It does not contain a particle of mineral of any kind to

of any kind to disagreeably affect the stomach, diges-tion and bowels, but by cleansing and strengthening the blood, puts every part of the body in healthy condition. Book on the blood and any medical advice desired without charge.
